## Wires Down Below Nogales

"No news. Wires down south of Nogales on account of heavy rains Monday," was the report yesterday of the Constitutionalist junta in Douglas.

Almost without exception, the Americans and foreigners in Sonora have reported excellent treatment and consideration at the hands of the constitutionalists. Efforts are also being made to offer protection and guarantees to the Mormons, who have suffered much through the past three years of revolution.

Reports received by prominent Mormons in this city state that the Constitutionalists are doing all in their power to give the necessary protection and that reports just received from the colonies in Chihuahua, which have suffered the most, state that Gen. Villa, while in the colonies, made them feel more at ease than at any time since the outbreak.

While no steps are being taken at the present time for the immediate return of the settlers to their homes, it is estimated that, with the success of the Constitutionalists, large numbers of the Mormon settlers will return, with the feeling that they can again take up their pursuits as "before the war."

When about to the water strata he dug through a cement formation until finally the center dropped out, leaving a shelf of cement just above the water. In the water, he could not find the sides of the opening by running the shovel out on either direction and the pool of water was 2-2 feet deep. He does not know just how much of a lake he has found, but is putting in a 4 h p gasoline pumping engine and a six inch cylinder pump. The water stands at 51 feet below the surface.

Alejandro D. Ainslie, de facto consul of the Huerta government, expected a reply Saturday from the Mexican ambassador at Washington relative to the taking down of the flag. Ainslie telegraphed Washington at once.

To Mayor I E Huffman he sent a note asking that the affair be investigated and the offenders brought to justice.

A protest by Mexican residents, carrying four pages of signatures is on Ainslie's desk.

The flag was not torn or desecrated in any way, as thought Friday, but merely hauled down and left hanging across a corner of the Ivanovich building, an American flag being run up in its place. Ainslie has the American flag.

Mayor Huffman said Saturday afternoon that he had received no communication from the state department relating to an apology.—Citizen

A Washington dispatch says—The selection of a federal judge for Arizona is proving a troublesome problem for the president. The Arizona delegation in congress would have liked to see the president send in an appointment with the nominations of Weedon and Birdno, but this he failed to do.

He did send in with these appointments the nomination of Jeremiah A. Notter to judge of the United States district court for the western district of Washington.
